Brandhome secures Digidentity's brand identity

Digidentity offers secure solutions for digital communication. That's important, because we live in an online world in which everyone has to be able to certify, authorise and identify him or herself simply and securely. This online world demands a strong online identity, which is why Digidentity turned to Brandhome.

Marcel Wendt of Digidentity: 'We asked Brandhome to beef up our digital brand identity by redesigning our website. The new web design, combined with a strong online brand identity prepares us for the intense development going on in our field.'

Brandhome's Nicoline Spruijt: 'We were delighted to work with Digidentity, because digital communication is gaining in importance all the time. Having completed a thorough audit of the existing website, we got to work on the design, in which we gave the website a new look that's more aligned with and offers a clearer understanding of the strength of Digidentity's products and services.'

Brandhome is a communication agency that works according to a unique and effective brand-building methodology, the Brandhome method®. The agency's key goals include constantly increasing brand knowledge. Brandhome is headquartered in Antwerp, Belgium.
